

12. The current proposal is to change the teal colour (#008080) to support orange (#f58220), but this will need to be tested with the front page and whether the buttons will become overwhelming. There has been a suggestion that these buttons could use a shade of the support orange (e.g. #f7a053 or #f8ae6c), then the hover could go to the full support orange colour (#f58220). This will need to be tested with the white colour text and general readability/clashing with the yellow in the left navigation menu.

Accessibility  
Review.

~~13a. CSS code: Font size to be consistent: Verify CSS code and check to see if there have been font size changes that have not been applied across board for paragraph and link styles.~~ 04.06.15

font size & weight now using USA 2014 theme values.

This now differs from the USA 2014 theme, as the theme has all heading non-boldd.

~~13b. CSS code: Revert CSS code to show highlighting.~~ 03.06.15

~~13c. CSS code: H1, H2, H3, & H4 headings: change CSS code so that all H1, H2, H3, & H4 headings are bold.~~ 03.06.15

^

~~13d. CSS code: Check consistency of font colour and size in text boxes across the site, e.g. books, wikis, pages, etc. Needs to be consistent across all types of content in the site.~~ 04.06.15

See 13A.

14. Moodle Book ToC: Adjust code to reflect correct menu style (i.e. the style seen in the Teacher view)

15a. Wikis: Modify CSS for wikis to reflect updated colour scheme as per CSS accessibility issue discussed above. See #12

~~15b. Wikis: Fix the wiki header issue (no vertical line, header colour).~~ 03.06.15

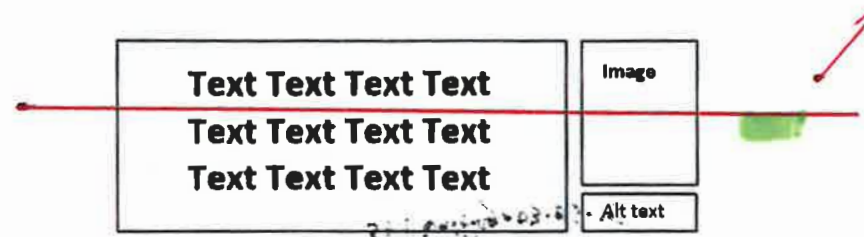

~~15c. Wikis: Update CSS code to make the font style consistent across wikis and site.~~ 04.06.15

See 13a

16. Colour wheels in Moodle books: The hyperlinked "hot area" area needs to be larger; it could be all of the bottom coloured area.

to Action

~~7. Landing page: L&T Highlights area: Change format to remove excess white space, e.g. format could be:~~ 02-06-15

~~8. Left navigation menu: Update the left navigation menu so that the space after the word is not underlined.~~ 02-06-15

~~9a. Left navigation menu: "PD & Training Events" > "Uni-Wide PD & Training" - needs to open in a new window; update link opening option to "Target: In new window (\_blank)".~~ 02-06-15

~~9b. Left navigation menu: "Ask for Help" > "Technology Support" - needs to open in new window; update link opening option to "Target: In new window (\_blank)".~~ 02-06-15

~~10. L&T Tips block: Fix HTML block so that "Learn More" link works.~~ 02-06-15

~~11. Anonymous Feedback block: Fix HTML block so that this works. (Note: It does work from the left navigation menu, but not from the block.)~~ 02-06-15

## 4. Appendix: Action List Request for Media Services

The above issues are listed here as action items.

~~1a. Landing page: Change layout to be consistent with USQ2014 theme (i.e. no third column).~~ 03.06.15

~~1b. Landing page: Reorder content as follows:~~ 03.06.15

- ~~• Welcome to PLAS~~
- ~~• Buttons~~
- ~~• Hot Topic~~
- ~~• L&T Highlights~~
- ~~• News~~
- ~~• Support Hotlines~~

03.06.15

~~2. Landing page: Make landing page responsive.~~ 03.06.15

~~3. Landing page: "Latest News" entries need to be listed in descending chronological order when they are updated via the Admin block on the left in Teacher mode.~~ 03.06.15

~~4a. Landing page: Landing page buttons need to have rounded corners.~~ not implemented, as per Discussion on 20.05.15

~~4b. Landing page: Landing page buttons need to have hover action.~~ 03.06.15

~~4c. Landing page: Landing page buttons need to have hover text (to be provided).~~ 04.06.15  
- still waiting, 03.06.15 - Text now Received: 03.06.15

~~5. Landing page: L&T Highlights area: The name of the person/contributor should be taken from the Alt text in the image, not hardcoded as it currently is.~~ 04.06.15  
Due to the Redesign of this Section (see #7) this is now Redundant.

~~6. Landing page: L&T Highlights area: The heading colour and formatting are to be consistent in appearance with the other headings on the landing page.~~ 04.06.15
